Accelerating decarbonisation

— argos —
climate action

ENERGY

Additional investments in its on-site methanation unit and use of biogas.

Objective:
Cut down energy GHG emissions
by more than 42%

SUGAR SOURCING

As soon as 2025, use certified sustainable sugarcane with 17% lower greenhouse gas emissions related to land management

✨ **Did you know?** Sustainable sugarcane comes with

- Better water efficiency
- Improved land management
- Reduced fertilizer use
- Enhanced biodiversity protection
- Social benefits.

PACKAGING

Partner with key suppliers

Objectives by 2030
Reach 70% of recycled PET in Routin's bottles.

FREIGHT

Shift to sustainable road freight using
second generation biofuels
and increase rail freight
